NEWS RELEASE

FOR IMMEDIATE RELEASE

Wednesday, January 6, 2021

County schedules second community COVID-19 vaccine clinic in La Joya

EDINBURG – Hidalgo County has scheduled its second COVID-19 community vaccine clinic, Hidalgo County Judge Richard F. Cortez said Wednesday.

The clinic will be held in the city of La Joya at the Lincoln Building, at 633 Howling Drive (Football Stadium Parking Lot). Officials will begin administering the Moderna vaccinations on Thursday, January 7, beginning at 8 a.m. on a first come, first served basis. Since there is still a limited number of doses available, the clinic will run until vaccinations are depleted.

"We are hopeful that the community responds to this second round of COVID-19 vaccines as well as they did for the first in Mercedes," said Judge Cortez. "As more vaccines become available to us, the opportunity for residents to become vaccinated will be easily accessible."

Hidalgo County will be following state protocol that targets healthcare workers. These workers will be asked to provide proof that they are in the healthcare industry.

Thursday's clinic also targets anyone born before 1955 and are now 65 years or older. In addition, people aged 18 and older with certain medical conditions are eligible to be vaccinated with the advice of their doctors.

More information, including a form that can be printed and prefilled, is available on the Hidalgo County website at www.hidalgocounty.us.

Hidalgo County is home to one of the fastest growing regions in the nation. We provide health and justice to the over 800,000 residents of our county. We strive to be accessible and responsive to our citizens by providing excellent public service through the values of leadership, transparency, fairness, collaboration, respect and fiscal responsibility. The following is the state definition for healthcare workers who are eligible for vaccinations on Thursday:

First Tier

1. Paid and unpaid workers in hospital settings working directly with patients who are positive or at high risk for COVID-19. Such as but not limited to:
 - a. Physicians, nurses, respiratory therapists and other support staff (custodial staff, etc.)
 - b. Additional clinical staff providing supporting laboratory, pharmacy, diagnostic and/or rehabilitation services
 - c. Others having direct contact with patients or infectious materials;
2. Long-term care staff working directly with vulnerable residents. Includes:
 - a. Direct care providers at nursing homes, assisted living facilities, and state supported living centers
 - b. Physicians, nurses, personal care assistants, custodial, food service staff;
3. EMS providers who engage in 9-1-1 emergency services like pre-hospital care and transport;
4. Home health care workers, including hospice care, who directly interface with vulnerable and high-risk patients;
5. Residents of long-term care facilities.

Second Tier

1. Staff working in outpatient care settings who interact with symptomatic patients. Such as but not limited to:
 - a. Physicians, nurses, and other support staff (custodial staff, etc.)
 - b. Clinical staff providing diagnostic, laboratory, and/or rehabilitation services
 - c. Non 9-1-1 transport for routine care
 - d. Healthcare workers in corrections and detention facilities;
2. Direct care staff in freestanding emergency medical care facilities and urgent care clinics;
3. Community pharmacy staff who may provide direct services to clients, including vaccination or testing for individuals who may have COVID;
4. Public health and emergency response staff directly involved in administration of COVID testing and vaccinations;
5. Last responders who provide mortuary or death services to decedents with COVID-19. Includes:
 - a. Embalmers and funeral home workers who have direct contact with decedents

- b. Medical examiners and other medical certifiers who have direct contact with decedents;
6. School nurses who provide health care to students and teachers.

Also eligible for vaccines on Thursday under state protocol are:

1. People 65 years of age and older;
2. People 18 years of age and older with at least one chronic medical condition that puts them at increased risk for severe illness from the virus that causes COVID-19, such as but not limited to:
 - Cancer
 - Chronic kidney disease
 - COPD (chronic obstructive pulmonary disease)
 - Heart conditions, such as heart failure, coronary artery disease or cardiomyopathies
 - Solid organ transplantation
 - Obesity and severe obesity (body mass index of 30 kg/m² or higher)
 - Pregnancy
 - Sickle cell disease
 - Type 2 diabetes mellitus.

These recipients are strongly encouraged to consult with and secure permission from their respective doctors to receive the vaccinations.
