Hidalgo County uses the case status definition provided by the Texas Department of State Health Service's 2022 Epi Case Criteria Guide revised May 2022.

1. *Confirmed: A person who has tested positive through a molecular test (PCR) that looks for the virus's genetic material.*
2. *Probable: A person who has either tested positive through an antigen test or has a combination of symptoms and a known exposure to someone with COVID-19 without a more likely diagnosis.*
3. *Fatality: Deaths for which COVID-19 is listed as a direct cause of death on the death certificate. A medical certifier, usually a doctor, determines the cause(s) of death. Deaths of people who had COVID-19 but died of an unrelated cause are not included.*

For more information of case status definition for COVID-19, please refer to:

<https://dshs.texas.gov/IDCU/investigation/epi-case-criteria-guide/2022-Epi-Case-Criteria-Guide.pdf>

According to the CDC, you are up to date with your COVID-19 vaccines if you have completed a COVID-19 vaccine primary series and received the most recent booster dose recommended for you by CDC.

For more information on COVID-19 vaccination status, please refer to:

<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/stay-up-to-date.html>

###

¹ Yearly case summary values for 2020 and 2021 were retrieved from internal Hidalgo County records. For this reason, numbers may not match DSHS dashboard and will not match when added across.

² Summary values for 2022, 2023 and cumulative total are retrieved from the Texas National Electronic Disease Surveillance System (NEDSS) and may not match the DSHS dashboard due to differences in data processing, timing, and methodology.

³ Fatalities are retrieved from Hidalgo County records, including medical records reviews, to confirm COVID-19 related fatalities. For this reason, numbers may not match DSHS dashboard.
